at the life and times of a truly Southern gal through the keepsakes stored in her closet. Memories can be associated with ANYTHING and Lee certainly takes us for a sometimes whimsical walk and occasionally a run down memory lane as she picks through the contents of her most personal space...her closet!

Thoroughly enjoyed reading Lee's book. I know first hand about her stories growing up in the same southern location and attending church with her as a young girl. Always knew she'd do things her OWN way. I can certainly go back in time to her mother's classroom and to the mother trying to keep up with an energetic and creatively smart daughter. Just couldn't put the book down wondering what Lee was going to do or say next! My family would agree that Lee and I have the same traits. Must be something we both inherited from our small town many, many years ago. You only need to look in my closets, basement, and classroom. Many wonderful memories came to surface during the reading and rereading of this entertaining book. The book will certainly be under the tree as a gift to my sister.

When I picked up this book, I did not know what to expect. I was enchanted with these witty stories. Each story is like stepping back into a wonderful memory. It becomes even more special if you owned one of the "items" she pulls from her closet. I can't wait for her next book!

Lee St. is a rogue Southern Belle, a high-jinx expert, and mayhem confessor. You'll see. Twisted, uproarious, revealing, delicious, quirky, surprising, warm, humorous, heartfelt, or scandalous. Take your pick. You'll find them all in these true stories about family, friends, co-workers, and others whose names she cloaks when telling her tales. Well, she had to. There's the story about being kissed by a President of the United States. And what about that Master's Golf Tournament winner she chastised in front of his entourage? And who feeds their toddler in the tub instead of the high chair just to keep from cleaning up after baby spills? Or the time she told everyone on FB she was invited to Prince William and Kate Middleton's wedding and because her imaginary narrative was so detailed, PEOPLE BELIEVED HER! Gotta hand it to her, though, at least she's authentic while she divulges this confidential information. Buckle up and get ready to be amused.
