Shells From the Sea is an adult coloring book of shells. The author/artist drew the 15 shells based on her own shell collection from beaches all over the world. Also included are 30 shell cards which can be colored or left as is to use as greeting cards or note cards. An envelope template is also included so you can print your own. (A business size envelope will also work so you will not have to pay extra for postage.) The shells are very intricately drawn so if you love challenges, this book will keep you coloring for quite some time. The designs are printed on one side of the paper only so there is no problem with bleed through. When complete, they will be suitable for framing.

About the Author Heather Burns is an American artist and illustrator living in Ireland. Her life long love of shells and her collection gathered from beaches all over the world inspired her to draw these intricate renditions of gifts from the sea for your enjoyment.
