Lots Of Fun, 25 Duplicate Single Sided Images To Color.By Fun Times MomI love Sherri Baldy's Besties. From her stamps, to CDs to coloring books they are all a lot of fun to color. This book contains 25 images that are duplicated, a total of 50 pages, for you to explore different color schemes or coloring with a friend or family. This 14th Volume offers lots of variety. Eighteen of the images contain her typical wide eyed Girls with their dogs. Four images are smiling with their eyes shut and one is winking. One image is a cute boy with his dog and one image is just a dog. All of Sherri Baldy's coloring books have thinner paper (3rd picture, left side, shows how you can see the previous image through the back of the paper). They are single sided images so as long as you put some heavier cardstock behind the page you're working on your other pages will be protected from bleed through or "impressions" from

colored pencils etc. None of the images run into the binding, they aren't perforated but it is possible to use a crafting blade to cut them out if you prefer. Currently that is what I do and then I copy it (on my Brother laser printer.. Ink doesn't smear with mixed media) onto at least a 60lb paper or higher. If your edges come out a little crooked, place a clean piece of white paper behind the image you are coloring so it appears to the copier as 1 full sized clean image. I have found that eliminates those pesky black shadows. If you wind up with black shadows and lines from copying your image while it's still attached to the book, recopy the page with the lines taped over with 3M white out/correction tape. You can reuse the tape on other pages too since it sticks like a post-it. Eventually you can get a clean image that way. I prefer to just go ahead and cut my pages out now since my laser printer isn't very "book binding" friendly. I save them in the coloring book or Avery Protector/storage sheets in a binder so I can use them again later.- My big wish is that Sherri would make her books with perforated pages since it's impossible to have 2 people color the same image at the same time anyway, like in a coloring party without some prep work before hand. So heads up, it makes them not very "travel/vacation friendly" without buying each person their own book or printing them out in advance. I am still buying them and coloring them since it's hard not to have fun with these images. Other Options: Her CD's can be found here on for just a little more money (price fluctuates) and are a lot of the same images found in these coloring books, but you can print them out in an 8 1/2 X 11, 5 x 7, 4 X 6 etc and no knife is needed. You can use your computer to color the images too and print out different backgrounds. Food for thought.. I have upgraded to Windows 10 (her CDs are for Windows 7) I have had a problem with 2 images found on 1 of her discs. My Dad does computer programming and he says it's a problem with the format the image was stored onto the disc in, not a Windows 10 issue, but her CDs or stamps are a knife free coloring option too. Happy coloring! ;) 2 of 2 people found the following review helpful. Such a sweet book. I love the artwork By Michelle the Colorist Such a sweet book. I love the artwork.
