Simon Tofield : Simon's Cat: Feed Me! before purchasing it in order to gage whether or not it would be worth my time, and all praised Simon's Cat: Feed Me!:

6 of 6 people found the following review helpful. Nice as a collectionBy fierceonigamiIt's a very cute book that is completely in color. Makes a good gift or addition to the collection for simon's cat fans or just cat fans in general. But I got "Simon's Cat" book before this and I noticed that a lot of the images in "Feed Me!" that you can find in "Simon's Cat" and I'm sure there's probably other images in this book that are probably found in other Simon's Cat books. That majorly disappointed me to find so many images I've seen in another book, with only difference is that "Feed Me!" is in color.Other than that, it's a very cute and funny book and makes a lovely collection/gift.3 of 3 people found the following review helpful. All books of "Simon's cat" are funny and entertained!By Blanca RodriguezI bought all the books of "Simon's cat" for my son, he has three years old.He likes a lot the cats and he loves these books.The books are entertaining and funny, just as in the "You tube" channel, but this time is printed and you can carry anywhere.Every time I see the book I feel like I missed something, every time you see it will be like the first time.All book by this author. They are a good buy!0 of 0 people found the following review helpful. My daughter loves it!By dadismeI bought the Simon's Cat book for my daughter's 12th birthday, to go with her Kindle. She loves animals, especially cats, and adores this book! The book is mostly illustrations, with really no words. It's a little slow to load on her Kindle Keyboard, but she says it's worth it. She has reread the book several times, and she's always showing her favorite cartoons to family and friends. We wish there was a greater selection of comic books available for the black

and white Kindles, like Calvin and Hobbes and Peanuts.

Simon's Cat is now bite-sized!

"[A] funny book that will serve as a great gift for yourself and others." —Doobybrain "[T]he mischevious kitten has lost none of his creativity in the jump from animation to the printed page...this is the ingenuity we have come to expect and the cat we have known and loved." —blogcritics.org
