Sara Corpening, Mary Barber : Simplify entertaining before purchasing it in order to gage whether or not it would be worth my time, and all praised Simplify entertaining:

0 of 0 people found the following review helpful. Love itBy R.W. M.The book is great. I will be able to use it in the future. It helps with the questions that I had.4 of 5 people found the following review helpful. This is a great book for learning how to entertain simply.By A CustomerI love this book it has great pictures and tons of ideas. Not a lot of pictures but enough to help you to use and create more ideas. It is simply written, very organized. It also has a step by step "Checklists and Resources" in the last chapter for you to fill in. Thanks Ladies for this book.

Hundreds of practical, simple solutions for creating the perfect party that will save you time and money and let you enjoy yourself in the process. This book is filled with many ideas and techniques to orchestrate a successful gathering-large or small, formal or casual.

.com If you love the idea of throwing parties, but stress out when it's time to make the dip and chill the champagne, this handy little spiral-bound compendium of terrific tips will get you revved up again. As the authors, identical twins Mary Corpening Barber and Sara Corpening, say reassuringly, "Emily Post isn't coming to your party." Mary and Sara tell how to throw everything from a modest business party in a restaurant to a big dinner party in the garden, with the keynote being simplicity. You won't find hints on formal wedding receptions here, but plenty of help with 99 percent of the kind of entertaining that most of us do. It's even got tips on getting the kids to help, removing inevitable carpet and upholstery stains, and minimizing post-party cleanup.
