K. Montsha Bailey : Sitting On The Back Pew before purchasing it in order to gage whether or not it would be worth my time, and all praised Sitting On The Back Pew:

The church is not perfect. Church people are not perfect. I am just glad that God has a sense of humor. Sitting On The Back Pew gives the reader a chance to look past what happens at the church house and see what goes on around it. Church families have the same struggles as regular folks. It's a comical view point of things that go on at church but

most are afraid to talk about. You are either going to laugh or be mad cause I told the story.
