Les Salmon : Ski instructor The Tales (Volume 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised Ski instructor The Tales (Volume 1):

This a great book to take your mind out of the work place and set you up for vacation time. Fun stories from the life of a ski instructor, on snow and off!. Les has put together a series of hilarious tales. These reminiscences will have you

grinning. Gleaned from a lifetime teaching skiing beginning in Scotland, through to the Alps and on to Colorado. They say reality is stranger (and funnier) than fiction, or as Les says “You can’t make this stuff up!” Although he usually doesn’t use the word stuff. This collection support the adage. These tales are not just for skiers but will delight the non skier. The book is about people and the daft things that they get up to...sometimes they do it on skis. They relate mainly to an era before Health and Safety and big business stifled the devil may care attitude of the early days. Before rules and regulations killed of the ‘ski bum.’ How he starts in the business sets the tone of the book. A student. broke..yeah like that’s unusual? He started teaching to pay for his skiing. Nothing unusual in that except that...he’d only been on skis about nine times himself! Enjoy the fun.
