Marcus Paul Cootsona : Slammin' before purchasing it in order to gage whether or not it would be worth my time, and all praised Slammin':

Slammin' is a really fun read and hits on all cylinders. There's something in this book for everyone - not just the tennis obsessed. The author takes special care in crafting his characters - no details are left behind. He can clearly go deep on tennis stats from decades past just as he can make

references to fine wine and 70's muscle cars. The funny bits make me think of David Sedaris and his command of the sport like David Foster Wallace in his piece on Federer. It's got a bit of intrigue and a dash of Silicon Valley. Culminating in an entertaining read that kept me coming back for more. Mr. Cootsona taps into the feeling we all have (all of us scratching to move from 3.5 to 4.0)... bouncing the ball three times and make-believing like you are Serena. Looking forward to the sequel and Wally's return to the tour.

Tennis Superhero
By John M. Blackmore
Marcus Cootsona has invented a new genre of superhero, a tennis teaching pro who in response to adversity, channels his anxiety and loss of control into an almost believable super power, the ability to serve a tennis ball at speeds of over 250 miles per hour. Wow! And the journey begins. We follow him through temptation, manipulation, intrigue and astounding plot twists, all in pursuit of a tennis dream, to try to win the U.S. Open at the age of 53. The book is a page burner, funny, clever and suspenseful to the end. It is a great summer read. Does Wally Wilson play golf too?

By Nancy M Gray
Slammin is a novel about a tennis pro in Silicon Valley California who suddenly finds himself in the middle of an international kidnapping plot. Like Gabriel Garcia-Marquez, the author creates a series of events, plots and subplots which delight, amuse and intrigue. This is a very fun read -- with many inside insights into the world of professional tennis sprinkled in along the way!

Slammin' takes place in a different 2011. Fifty-three year-old tennis pro and family man, Wally Wilson is happily teaching Silicon Valley's millionaires and billionaires on the double-wide estate of his temptress and benefactor, 17 year-old Ashley Margincall. But when Wally's serve speed spikes and unidentified government agents appear, he begins a pro tennis odyssey that might lead him to the U.S. Open or the twisted nexus of a Grand Slam conspiracy. Strangely blessed, but always behind the curve, Wally realizes he's been given all the power, but none of the control.

"The world constructed by Cootsona feels very alive, and even in the face of the most bizarre dangers of the book a laugh can somehow be found." Self Publishing
